1152-core quad-network integrated optical distribution box

Overview

YFDC-1152A Fiber Distribution Cabinet, also known as Fiber Distribution Hub, Fiber Optic Distribution Cabinet, has a variety of functions including leading optical cables, fixing and protecting, splicing and protecting fiber optic, storing and managing pigtails, parking. Designed for 1152-core fiber termination, splicing, and distribution, equipped with 12-core fusion-splicing-distribution integrated trays, maximizing fiber capacity in a compact structure. generally the OCC/ODC/FDT consists of several part, like integrated splicing unit, PLC. Fiber optic cross connect cabinet is an outdoor optical equipment that is especially designed for outdoor optical nodes in access network.
