

128-channel fiber optic switch

128-channel fiber optic switch

Device Overview

Dynamic Ports on Demand (Dynamic-POD) scaling from a base configuration of 48 ports to 128 ports (two 24-port SFP+ PODs and one 32-port SFP-DD POD). 8, 10, 16, 32, and 64G auto-sensing Fibre

128 port Fiber Optic Mux

Model TC8108 Fiber Optic Multiplexer, maximizes user flexibility by offering field interchangeable interfaces, modular expandability from 8 to 64 channels and

1X128 Optical Switch

1X128 Optical Switches Modules is a kind of functional component, with the ability of switching optical route. The 1X128 Opto-Mechanical Optical Switches consists of 1 input and 128 output fiber ports that

DTS-81080-01-03 dd

"Channel Stacker" 8-to-128 Channel Fiber Optic Multiplexer Mix or Match Field-Interchangeable Inter-faces: RS-232, RS-422, RS-485*, TTL & Dry Contact Relays Data Rates up to 38.4 Kbps* 8 to 64

Multichannel Optical Switch, 1xN Multi-channel Rotary Opto

GLSUN's multichannel rotary opto-mechanical switches are functional switch modules used in ring network, remote monitoring and testing fiber optical network with features of over 128 Channels, low

1x128 Optical switch module

1x 128 Optical switch module Features Up to 128 Channels Low Loss, High Reliability Parallel interface (TTL) Modularizing Design

MEMS 1X128 OPTICAL SWITCHING SYSTEM

DiCon's GP800 1x128 Optical Switching System enable the automated connection of one common fiber to any of N output fibers. The GP800 System comes with multiple control interfaces for users to

Item backordered Plug-in module Wired 128 Gigabit Per Second 128Gb Fibre Channel (Short Wave) - Fiber optic

QSFP28 100G SR OTU4 128G Fiber Channel

QSFP28 100G SR OTU4 128G Fiber Channel Transceivers Relieve Core Network Bottlenecks Search Products Content Last Updated: May 7, 2025

MEMS 128 x 128 Fiber Optical Switch

MEMS Series Fiber Optical Switches are plug-and-play, all-in-one units that provide direct, non-blocking optical signal routing between any input ports to any output ports with millisecond switching speeds.

1x128 Optical Switch

This 1x128 Optical switches Rackmount is composed of one input and 128 output optical fiber ports, which can selectively transmit, redirect or block the optical

HPE Storage Fibre Channel Switch B-series SN6650B

The HPE Storage Fibre Channel Switch B-series SN6650B is a high-port density building block with 128 Fibre Channel ports that provides the tools to help

Optic Network Switch With 128 Ports

This Optic Network Switch with 128 Ports offers high scalability, full-fabric architecture, and advanced Fibre Channel support.

Cisco MDS 9148V 64-Gbps 48-Port Fibre Channel Switch Data Sheet

Cisco MDS 9148V 64-Gbps 48-Port Fibre Channel switch brings the latest high-performance, low-latency Fibre Channel Storage Area Network (SAN) technology to market. Along

MEMS Matrix Fiber Optical Switch

The MEMS FIBER Optical switches establish optical signal paths passively in milliseconds, supporting all data rates, ideally suited to manage and monitor large optical networks intelligently and remotely.

Discover the power of high-speed, reliable networking with Cisco's QSFP transceiver module. Designed to meet the demands of modern data centers, this module offers a data transfer rate of 128 Gbps,

128GFC: A Preview of the New Fibre Channel Speed

About the FCIA "The Fibre Channel Industry Association (FCIA) is a mutual benefit, non-profit, international organization of manufacturers, system integrators, developers, vendors, industry

MxN matrix Optical Switch Module

MEMS Matrix MxN optical fiber switch can switch one of the input channels to one of the output channels. GEZHI offers standard single-mode, multi-mode, and

Gen 8 Direktoren und Switches mit 128 Gbit/s Fibre Channel

Januar 2026 IBM integriert die Gen 8 Fibre Channel-Technologie von Broadcom in sein Storage-Networking-Portfolio. Neu verfügbar sind die Gen 8 Direktoren SAN512B-8 und SAN256B-8 sowie

Optical Switches: Singlemode/Multimode Fiber Optic

Lfiber's fiber optic switch is available from 4 to 256 ports/channels (typically 128/64/32/24/16/8/4 port). The port count is customizable according to specific

12 port fiber switch , Newegg

SonicWall Switch SWS12-10FPOE 12 Ports - Manageable - 2 Layer Supported - Modular - 2 SFP Slots - 152.80 W Power Consumption - 130 W PoE Budget - Optical Fiber, Twisted Pair - PoE Ports - Desktop

DTS-81080-01-03

It supports data rates up to 38.4 Kbps*. Power redundancy is standard, optical redundancy is optional. Both feature automatic switch-over. Each unit consists of an 8-channel base unit and up to seven

High-Quality Fiber Optical Switch with 128+ Channels Low Loss, and

Sun Telecom's Fiber Optical Switch is a kind of device with the ability of the optical channel switching. It is used in optical channel control system, LAN, light source/detector change, and protect change of

Multi Channel Optical Switch

Multi Channel Optical Switch Description: "A 1xN multi-channel optical switch is a device used to control light paths, allowing switching between multiple fiber optic

Fiber-optic Prism Optical Switches

The 1x2 single-mode switches are two position devices that enable channel selection. These non-latching models require a 5V DC switching voltage.

MEMS 1X128 OPTICAL SWITCHING SYSTEM

GP800 Model, Single Mode Fiber DiCon's GP800 1x128 Optical Switching System enable the automated connection of one common fiber to any of N output fibers.

24-Port Fiber Optic SFP Managed Switch with 10G Uplink

24 port Fiber Optic SFP Managed Switch allows you finish fiber connectivity that is with different bandwidth requirements conveniently and cost savings.
