

CCC markings on the distribution box

Overview

The CCC mark serves as a visible proof of compliance, indicating that a product meets China's national standards for safety, health, and environmental protection. Any product within the scope of the CCC catalogue must carry this mark before it can enter the market. Currently, there are 22 groups of products divided into 132 product categories that require mandatory CCC Mark Component parts of finished products, spare parts and replacement parts, may in some cases require CCC certification Products applied for CCC certification must conform to Chinese standards. The mandatory minimum marking requirements for all DOD CUI is CUI Banner/Footer markings and the CUI Designation Indicator or DI Block. Banner/Footer markings appear at the top and bottom of all documents containing CUI. And when it comes to electrical products that touch safety—like distribution boxes, which are the "nerve centers" of any building's. What is the CCC Certificate or CCC Mark?

CCC means " China Compulsory Certificate ", or is abbreviated as "3C".
