

Color Comparison of Fiber Optic Patch Cord Components

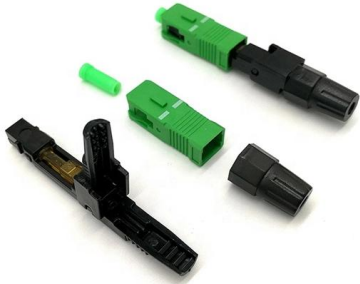

Overview

Developed by the US Telecommunications Industry Association, EIA/TIA-598 defines the fibre colour coding for different types of fibre patch cords. WolonFiber's 12-Color Fiber Optic Pigtail Packs are manufactured strictly to the TIA-598-C standard with vibrant, easy-to-identify colors. The most critical piece of performance data on your 400G network doesn't come from an OTDR trace—it comes from. Fiber optic patch cords, also known as fiber optic patch cables or fiber jumpers, are indispensable components in modern optical networks.
