

Configuring a Router with an Optical Fiber Switch

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. However, setting up a fiber optic connection to your router can seem daunting if you're unfamiliar with the process. I'm thinking I'll get a router and switch with SFP to handle the fiber directly (instead of separate media converters they mentioned).
