

Customized Spectrometers

Customized Spectrometers

Custom Spectrometer MicroSpec(TM) Duo , OEM

Despite its miniature < 27 x 29 x 19 mm size at only 30 g, the MicroSpec Duo delivers the precision and reliability needed for demanding spectral power

Customized MRMS , Bruker

Customized MRMS - world's most advanced mass spectrometers Differentiate yourself with customized advanced mass spectrometry: Bruker matches world

OEM spectrometer project model

Learn how Ibsen Photonics can help you develop custom OEM spectrometers, including design, prototyping, and manufacturing processes.

HP Spectroscopy

HP Spectroscopy is your one-stop consultant and manufacturer for the generation and measurement of light at vacuum wavelengths and beyond. Our product lines

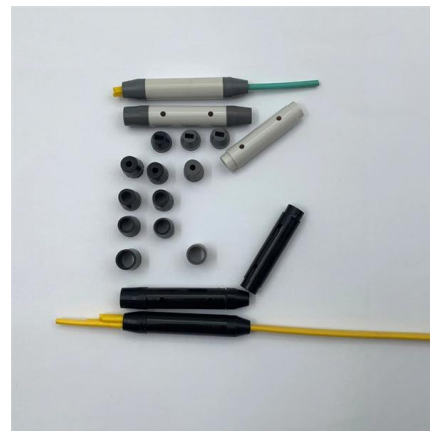

Customized XUV/VUV spectrometers , HP spectroscopy

Customized XUV / VUV spectroscopy solutions tailored instrumentation for cutting-edge research in-house development of spectrometers, gratings, detectors

Customized spectroscopy solutions , HP spectroscopy

Aside from the standard spectrometer portfolio, we offer turn-key spectrometers tailored to the specific application. Custom-designed spectrometers for the VIS / UV / VUV / XUV / EUV / X-ray range. Ions

CUSTOM Spectrometer

The table below shows the standard specifications of our MIDWAVE Spectrometer. The text marked in red designates the specifications that can be customized.

Portable Gamma Spectrometer Handheld Gamma Ray

Handheld Gamma Spectrometer for emergency response and CDC, EPA enforcement. Small size, lightweight, and customized support for various needs. 3

Custom Spectrometers

Get Quotations on your custom Spectrometer requirement from multiple manufacturers via GoPhotonics. Enter your requirements, details and upload any supporting files.

Custom Spectrometer , Manufacturer , Supplier , LightMachinery

LightMachinery is a manufacturer and supplier of custom spectrometers. If you need to discuss the various parameters and trade-offs please

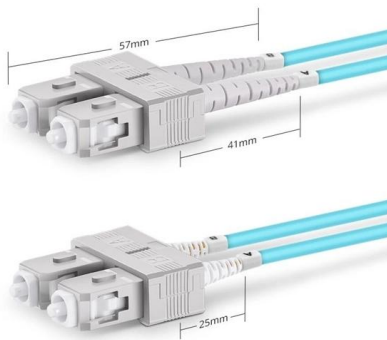

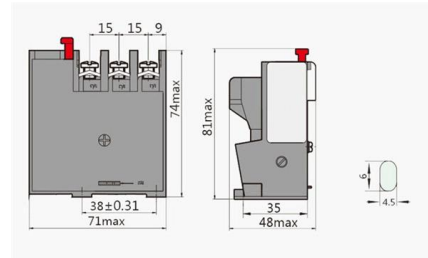

Make or buy your spectrometer

Focused 100% on OEM business, Ibsen Photonics is the preferred partner for leading industrial companies in volume supply of high performance spectrometers and transmission gratings.

Spectrometers Systems , High quality process control

Spectrometer systems for large area coatings, food & agricultural industry. Ensuring quality, securing process control and providing greater efficiency.

Duplex SC UPC

Imaging Spectrometers and imaging spectrographs

HORIBA offers a range of imaging spectroscopy products from OEM imaging spectrometers to research grade imaging spectrometers.

Customized MRMS , Bruker

Differentiate yourself with customized advanced mass spectrometry: Bruker matches world class technologies in flexible customized instrumentation for your ultimate

Custom Spectrometers Mightex

So if you are unable to come up with a good solution using our "standard" spectrometer range, please contact the AMS Technologies spectrometer experts

Thermo Fisher Scientific

Thermo Fisher Scientific enables our customers to make the world healthier, cleaner and safer. Delivering technology, pharmaceutical and biotechnology services.

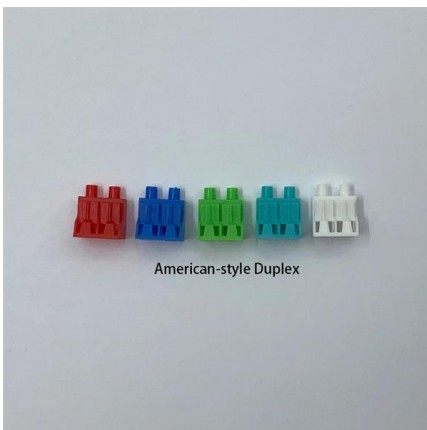

Compact Spectrometer Products , Pembroke Instruments

Compact UV-VIS-NIR Spectrometers for Scientific, Industrial, and OEM Applications Compact spectrometers are widely used in scientific research, industrial process

Spectrometers Monochromators and Spectrographs

With HORIBA's complete selection of spectrometers, spectrographs, and monochromators you will find the monochromator or spectrometer that suits your research needs.

Custom Spectrometers

Mightex offers a wide range of custom spectrometer solutions. If are unable to come up with a good solution using our 'standard' spectrometers, please call us at +1-416-840-4991 or email us at

Customized NIR Spectroscopy

Discover the power of a customized miniaturized NIR spectrometer integrated for your analysis needs. Get detailed insights and accurate results with our advanced material analysis solutions, designed

Quest(TM)

B& W Tek's Quest(TM) line features our smallest, lightest and lowest cost USB spectrometers for applications like laser metrology, absorption and fluorescence.

Light Sources for Spectroscopy

Among HORIBA's unique state of the art light sources you can easily find the best VUV, pulsed laser, or broadband light source for your needs and configure a custom light source solution for your unique

Spectrometers

Spectrometers - Multi-channel spectrometers
HORIBA designs and manufactures a large range of custom OEM multi-channel spectrometers with up to 96 channel

Spectrometers , Custom Build Raman

Our Discover-It-Yourself Raman product line allows for full customization to ensure accurate measurements and consistent performance.
