

Exfo dimmable attenuator

Exfo dimmable attenuator

EXFO Variable Attenuator FVA-600 : Caspin Verna

The FVA-600 is a variable optical attenuator used for bit error rate and system testing, optical margin analysis, calibration verification and component testing. It is configured for single mode fibers.

EXFO FVA-3100 Optical 100dB Programmable Variable

The EXFO FVA-3100 is a high performance optical attenuator specified for use within the band 700-1350nm. The attenuation is programmable from the

IQS-3100 Variable Attenuator

EXFO's IQS-3100 Variable Attenuator combines innovative design techniques, high-quality components and meticulous calibration procedure. Reliability and repeatable performance. That's what the IQS

Exfo FVA-3100

EXFO FVA3100 Variable Attenuator High-quality components and meticulous calibration procedures make the FVA-3100 Variable Attenuator the instrument of choice for repeatable and accurate

Variable Attenuator , Power Monitoring , BER Testing

Ideal for bit error rate testing and system verification, the FTBx-3500 is the only variable optical attenuator (VOA) that offers a fully remote user interface (UI) and

Variable attenuators , EXFO

EXFO's compact handheld Optical Attenuators help test and qualify optical systems during installation, turn-up or routine maintenance. Discover them now!

IQS-3150 Variable Attenuator

EXFO's IQS-3150 Variable Attenuator combines innovative design techniques, high-quality components and meticulous calibration procedure.

Product (FVA-600)

FVA-600 Variable attenuatorv Designed for optimal flexibility and field usability, the FVA-600 delivers the highest performance within handheld optical attenuators on the market.

Exfo IQS-3150-B-EI (Variable Attenuator) , ArtisanTG(TM)

It can be used as a regular attenuator or it can be equipped with an integrated

FTBx-3500 , Spec sheet , EXFO

EXFO's FTBx-3500 variable attenuator combines innovative design techniques, high-quality components and With or without the power monitoring option, the FTBx-3500 module occupies

Exfo IQS-3150-B-EI (Variable Attenuator) , ArtisanTG(TM)

The Exfo IQS-3150-B-EI Variable Attenuator may still be available for purchase and support from Artisan Technology Group beyond End-Of-Life (EOL) by the

HIGH-POWER VARIABLE OPTICAL ATTENUATOR
The OSICS ATN module integrates industry standard attenuator components. It combines a 60 dB attenuation range with the power to operate

Why Choose Us

- 20 Years of OEM/ODM**
20 Years factory manufacturing experience.
- Professional R & D team**
30 years experience in optical electronic engineer.
- Fully Certified**
Our are certified CE, UL, TUV, ISO9001, ISO131948 etc.
- Timely Delivery**
21 production lines, 500+ employees, Timely delivery guaranteed.
- Quality Assurance**
Professional QC team with full process inspection.
- After sales service**
After Sales Service for Customer Satisfaction.

User Guide Variable Optical Attenuator (English)

Although EXFO guarantees that the minimum insertion loss is below a specified value (see specification sheet), it may vary slightly from one wavelength to another and from one Variable Optical Attenuator

EXFO FTBx-3500

EXFO FTBx-3500 - Variable attenuator Ideal for transceiver testing and system verification in demanding 24/7 production environments.

MOA-3800

Two versions of the MOA-3800 exists: singlemode and multimode. Optimized for use with EXFO systems and software, the MOA-3800 Variable Optical Attenuator

FVA-600

FVA-600 - Variable Attenuator Key Features Most compact and rugged portable attenuator on the market Low cost of ownership: three-year warranty and

Exfo IQ-3100-D54 (Variable Attenuator) , ArtisanTG(TM)

The fully programmable IQ-3100 Variable Attenuator offers reliable and repeatable performance and is ideal for automated BER testing. Optical system

EXFO FVA-600 , Optical Variable Attenuator , DMOptics

EXFO FVA-600 Variable Attenuator The EXFO FVA-600 Variable Attenuator is a compact and rugged portable attenuator. The FVA-600 has 3 operating modes: Absolute, Relative and Power. It has USB

FVA-600 , Spec sheet , EXFO

EXFO has made every effort to ensure that the information contained in this specification sheet is accurate. However, we accept no responsibility for any errors or omissions, and we reserve the right

MOA-3800 VARIABLE ATTENUATOR

Optimized for use with EXFO systems and software control via SCPI over ethernet, the MOA-3800 Variable Attenuator (VOA) can precisely add attenuation to four, eight or sixteen different singlemode

Exfo FVA-3100-DEI (Variable Attenuator) , ArtisanTG(TM)

The Exfo FVA-3100-DEI Variable Attenuator may still be available for purchase and support from Artisan Technology Group beyond End-Of-Life (EOL) by the

FTBx-3500

Network equipment manufacturers and transceiver manufacturers know that variable attenuators are essential components of their test systems. They look for

Product specs for EXFO America Inc. FVA-3100

Product Description: EXFO America Inc. FVA-3100 Programmable Variable Attenuator Feature: Type: Attenuators Wavelength: 700nm The FVA-3100 achieves accurate, repeatable and precise

Variable attenuator

Find out all of the information about the EXFO product: variable attenuator IQS-3150. Contact a supplier or the parent company directly to get a quote or to find out a

Variable attenuator

Find out all of the information about the EXFO product: variable attenuator MOA-3800. Contact a supplier or the parent company directly to get a quote or to find

EXFO FVA-600-B-XX : Optical Variable Attenuator - CEGROUP

Designed for optimal flexibility and field usability, the FVA-600 delivers the highest performance within handheld optical attenuators on the market.

Variable Optical Attenuator: Feel the Power

In order to increase the flexibility of our IQS-3150 Variable Optical Attenuator, we have developed an option that integrates both a coupler and a power meter into the one-slot attenuator module. This

Exfo FVA3100

High-quality components and meticulous calibration procedures make the EXFO FVA-3100 Variable Attenuator the instrument of choice for repeatable and accurate attenuation settings (up to 100 dB).
