

# **Fabrinet optical module**

## Overview

---

Fabrinet manufactures a wide variety of optical components including both passive and active optical products. Fabrinet partners Nokia under the Department of Commerce BEAD program to manufacture next-generation multi-rate optical modules. Nokia will produce multi-rate optical modules at Fabrinet's state-of-the-art facility for Optical Line Terminals, that will generate additional high-tech jobs at Fabrinet. The optical transceiver market is riding a wave of unprecedented growth, fueled by advancements in AI-powered data centers, 5G networks, and cloud computing. Production, which will start in 2024, will support solutions offered under the Broadband Equity.
