

Fiber optic transceiver FC interface gigabit

Overview

1G Ethernet and FC SFP – Gigabit Ethernet (GbE) and 1G FC SFP transceivers for cost-effective optical networking, available in both single-mode and multimode variants. With options from 1G up to 800G, they are widely applied in data centers but can also be used in other different working scenarios. Learn product details such as features and benefits, as well as hardware and software specifications. Our SFP (Small Form-Factor Pluggable), QSFP (Quad Small Form-factor Pluggable), and GBIC (Gigabit Interface Converter) fiber optic transceivers offer flexible, high-performance solutions for Gigabit Ethernet transmission over both multimode and singlemode fiber cables.
