

Gpbd Insert Optical Module

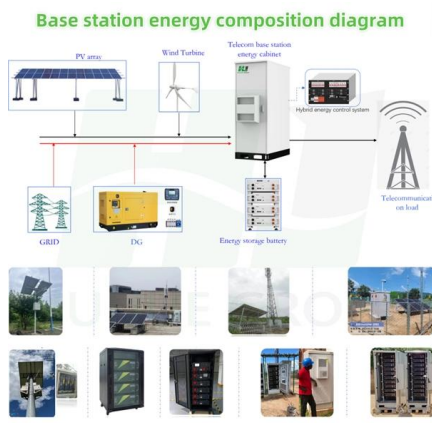

Overview

The Huawei GPBD 8-Port GPON OLT Interface Board is a high-performance optical access module designed for Huawei MA5600T, MA5603T, and MA5608T OLT platforms. The whole procurement experience is good, detailed packing list makes us very clear for the items in each carton. We rely on Huawei for our critical network infrastructure, and this GPON board GPBD lives up to their reputation for carrier-grade reliability. Configured with 8 GPON-OLT-C+ Optical Modules The GPBD service board is a core component of the Huawei SmartAX MA5680T/MA5683T/MA5608T series OLT equipment, primarily used for the access and processing of GPON (Gigabit Passive Optical Network) services.
