

Huijue PoE Switch Extension

Overview

Hardware DIP switch for "Standard" and "Extend" mode selection; the "Extend" mode features 30-watt PoE transmission distance of 200 meters at speed of 10Mbps. In addition to transmitting network data, a PoE Switch has a built-in Power over Ethernet injector to supply up to 100W Power over Ethernet (PoE) to standards-based 802.3bt compliant devices such as IP cameras, VoIP phones, and wireless access points. A Power over Ethernet (PoE) extender is a device designed to amplify the reach of PoE networks beyond the standard 100-meter limit of Ethernet cables. The EnGenius cloud-managed EXT1105P Switch Extender is a streamlined network expansion and connectivity enhancement solution designed to tackle power and connectivity challenges across diverse industries. With PoE technology and multiple PSE output ports, it eliminates network cabling and power.
