Iranian intel cyber suite of malware uses open source tools

To better enable defense against malicious cyber actors, U.S. Cyber Command's Cyber National Mission Force has identified and disclosed multiple open-source tools that Iranian

The Role of OSFP-800G-2FR4 Optical Modules in AI

The OSFP-800G-2FR4 optical module achieves a data transmission rate of 800Gbps. Compared to traditional 400G or 200G modules, it significantly

7 Best VPN For Iran: Free and Paid Options [Tested 2026]

We tested the top providers to find the best free VPN services for Iran to bypass censorship and online content restrictions.

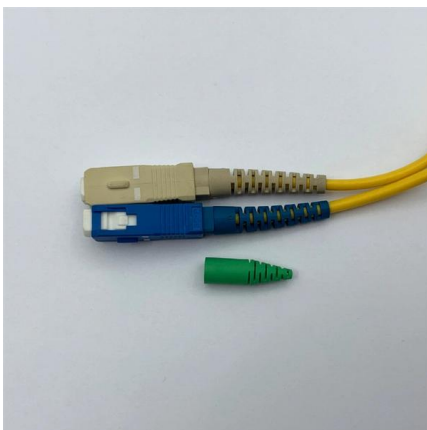

Info on Providing Proxy Servers to Iranian Dissidents?

Does anyone know of efforts to provide proxy servers to Iranian dissidents? I would like to help. Caveats: I am a networking newbie with some underused hardware of lightweight capability, so I do

OSFP AI Networking: Architecting GPU Clusters for Distributed Training

The guide presents an entire system that shows how to build AI training networks with OSFP technology.

Iran Unveils National AI Platform: A Leap Towards

It enables the development of indigenous AI models, minimizing reliance on foreign platforms. The platform features big data processing

OSFP: Enabling Next-Gen AI Servers with Superior Bandwidth and

The Open Standard Form Factor (OSFP) has become a critical enabler for next-generation AI servers, offering superior bandwidth, scalability, and thermal performance.

Iran unveils national AI platform prototype , Iran

Iran has unveiled a prototype of its national artificial intelligence (AI) platform, developed in collaboration with Sharif University of Technology.

5 Best VPNs for Iran in 2026: Fast & Secure

The best VPNs for Iran should have strong security, fast speeds, and user-friendly features. Check out the top VPNs for Iran in our guide.

Iran's AI Ambitions: National Security, Global Influence, and Strategic

Explore how Iran is leveraging AI for cyberwarfare, influence ops, military tech, and domestic surveillance. A deep dive into Tehran's top-down AI strategy, partnerships with China and

OSFP AI Networking: Architecting GPU Clusters for Distributed Training

Learn OSFP AI networking architecture for GPU clusters. Covers 800G InfiniBand NDR, spine-leaf design, rail-optimized topologies, and bandwidth requirements for distributed training.

400G OSFP Transceiver High-speed AI Data Center Solution

This OSFP transceiver is critical for AI compute centers, enabling high-bandwidth, low-latency connectivity essential for GPU clusters and distributed training.

Iranian AI Platform that Operates Even During National Crises -

Designed with a focus on national cyber resilience, the platform can function even during internet disruptions, providing a critical tool for maintaining cybersecurity during crises.

Understanding the OSFP Standard: The Open 400G/800G Optical

As AI workloads grow exponentially, OSFP's scalability, cooling efficiency, and high power budget make it the preferred solution for AI-native data centers worldwide.

Horizon3.ai Issues Guidance on Emerging

Iranian Cyber

Page 7/9

Horizon3.ai releases guidance on emerging Iranian cyber threats and recommended defensive actions for organizations and critical infrastructure.

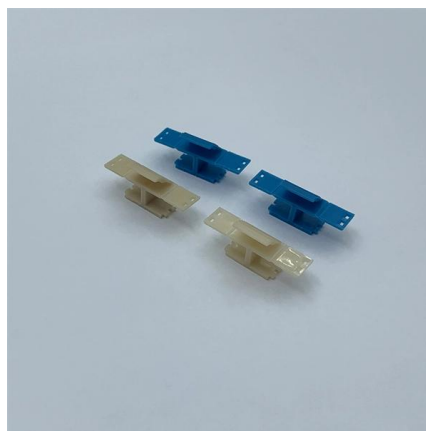

Iran embarks on AI development with national open-source platform

The initiative, supported by 38 knowledge-based companies, is part of Iran's broader strategy to promote domestic innovation and position itself as a regional leader in AI development.

Artificial Intelligence Is Accelerating Iranian Cyber Operations

Iran's use of AI to bolster its cyber operations, including deepfakes and AI-generated content, enhances its influence

Proxy for Iran (2026): Safer, Working Options With Clear Steps

Need a proxy in Iran? This guide explains what works now, reliable proxy providers and how to easily set them up.

A Comprehensive Guide to 400G OSFP Ethernet

Explore 400G OSFP Ethernet optical transceivers for modern data centers, AI and HPC networks. Learn OSFP advantages, use cases, and

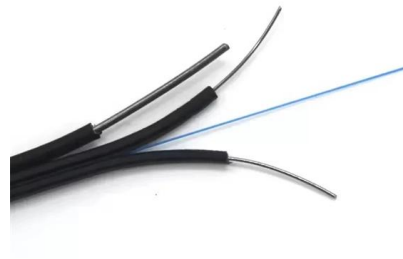

400G OSFP Transceiver High-speed AI Data Center Solution

Ultra-Efficient OSFP AI Transceiver: Powering AI Infrastructure Economically Ultra-efficient 400G OSFP transceiver enabling high-density AI/ML cluster connectivity. Features 4x100G PAM4 breakout via

Iran plans GPU data center to host national AI system

As reported by Iran Press, the plans also include the development of a national AI operating system, for which a prototype to host AI algorithms locally is

Reddit

Hier sollte eine Beschreibung angezeigt werden, diese Seite lässt dies jedoch nicht zu.

Iranian AI Platform that Operates Even During National Crises -

Crucially, the AI service remains fully functional in the event of restricted or internal-only internet access, as it operates solely on domestic servers. "In times of crisis, such as war, if internet

Silicon Persia: Iran's AI Aspirations and Challenges

This report examines Iran's strategic advancements in artificial intelligence (AI), as Tehran has reaffirmed its commitment to advancing this sector.
