

## Overview

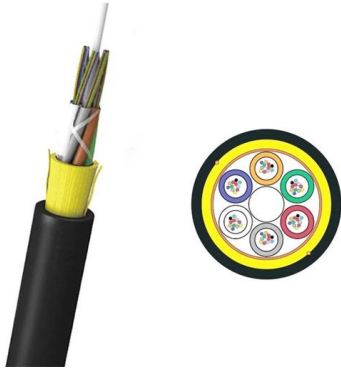

---

Run wires from the boxes to the wireway, leaving 6 to 8 inches of extra wire at boxes to make connections. Surface mount junction boxes are ideal for renovations, retrofits, and locations where cutting into the wall is not possible or not desired. Whether in a home or an industrial facility, this box keeps your electrical setup organized, functional, and efficient. I'm aware of 2 ways to "break out of the wall" from a recessed breaker panel to surface-mount conduit going somewhere else: In-wall wiring from the panel to a metal box in the same stud bay (e.

## Surface-mounted electrical wiring out of distribution box
