

# Swiss Metal Spectrometer

## Swiss Metal Spectrometer

---

### Overview , Instrument - EMIT

EMIT uses an advanced imaging spectrometer instrument that measures a spectrum for every point in the image. Sunlight reflected from minerals on the Earth's

### SWI

SWI is a submillimetre wave heterodyne spectrometer, consisting of two channels that measure spectra in the wavelengths ranges around 520  $\mu\text{m}$  (530 GHz - 625

### Analytical instruments and equipment , Metrohm

Metrohm was founded in 1943 in Herisau, Switzerland. Since then, Metrohm has developed into one of the world's most trusted manufacturers of high-precision instruments for chemical analysis.

### Metal Analyzer

The ARL iSpark Optical Emission Spectrometry is a metal analyzer designed for the characterization of alloys for quality control during metals

### Mass Spectrometers companies from Switzerland => chemeurope

Founded in Switzerland in 2002, TOFWERK develops and manufactures high-performance analytical instruments based on our Time-of-Flight Mass Spectrometry (TOFMS) technology.

### SPECTRO xSORT

The innovative onsite metal testing analyzer SPECTRO Analytical Instruments is an acknowledged leader in benchtop spectrographic analysis for laboratories worldwide, with decades of expertise in

### Portable Metal Analyzer

The SPECTROPORT portable arc spark spectrometer is ideal for many applications in the metal producing, processing, and recycling industries. Find out more.

### Solar Wind Ion Spectrometer (SWIS)

SWIS is a spacecraft plasma instrument that actively measures solar wind ion velocities, densities, and temperatures, enabling detailed heliospheric analysis.

### Elemental Analysis Solutions & Analytical Instruments , SPECTRO

SPECTRO is a global leading supplier of advanced analytical instruments like ICP, Arc Spark OES, and XRF spectrometers for precise elemental analysis of materials.

### Metal analysis spectrometer

Find your metal analysis spectrometer easily amongst the 39 products from the leading brands (Thermo Fisher, Bruker, LECO, ) on DirectIndustry, the industry

### Bruker S1 Titan , Yspekh XRF Switzerland

The Bruker S1 Titan is a portable XRF tube analyzer known for its reliability in the analysis of metals and alloys. Whether for sorting metals in landfills, identifying alloys in the industry, PMI, precious metals,

### High-resolution RIXS with the SAXES

### Spectrometer at the ADRESS Beamline

Since 2007 at the Swiss Light Source, the SAXES instrument, jointly designed and built by the Paul Scherrer Institut and the Politecnico di Milano together with its host beamline called

### Heavy Metal Analysis , SGS Switzerland

Verify heavy metal contamination with analytical testing solutions to determine hazardous substance levels in food and feedstuffs from SGS. Heavy metals such as lead, cadmium, mercury

### Elemental Analysis : Shimadzu (Switzerland)

Shimadzu has been a world leading manufacturer of high-quality elemental analysis spectrometers that meet the application requirements of a wide range of customers, from metals, chemicals, and

### High-resolution resonant inelastic X-ray scattering with soft X-rays at

The experimental development of the resonant inelastic X-ray scattering (RIXS) technique in the soft X-ray energy range has been tremendous during the last years. The ADRESS beamline at

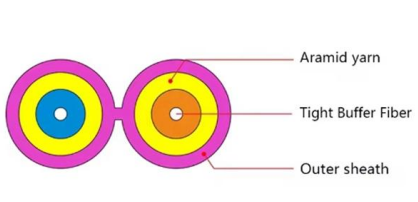

## Spektrometer für die Metallanalyse

Das ARL X900- Spektrometer ist das am besten geeignete Gerät für die XRF-Elementaranalyse und Prozesskontrolle. Das sequenzielle/simultane

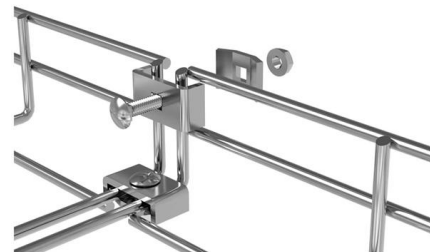

## Spectrometers for Steel Testing in Steel Industry Plants

Enhance steel testing with OES Spectrometer. It ensures precise analysis of carbon, nitrogen, oxygen & fine wire, foil, thin analysis in steel plants,

## Snow and Water Imaging Spectrometer (SWIS): optomechanical and

The Snow and Water Imaging Spectrometer (SWIS) is a fast, high-uniformity, low-polarization sensitivity imaging spectrometer and telescope system designed for integration on a 6U CubeSat platform.

## Swissmetal Industries SA

Swissmetal Industries SA Swiss production of copper alloys and semi-finished products Product Portfolio Booklets

## Snow and Water Imaging Spectrometer: mission and instrument

The Snow and Water Imaging Spectrometer (SWIS) is a science-grade imaging spectrometer designed for CubeSat integration, spanning a 350- to 1700-nm spectral range with 5.7

## Bruker Corporation

ZÜRICH-- (BUSINESS WIRE)-- Bruker announces the acceptance of a 1.2 GHz Ascend(TM) Nuclear Magnetic Resonance (NMR) spectrometer at the

## Metallprüfung und -analyse , SPECTRO

Diese mobilen Betriebsspektrometer von SPECTRO dienen zum Identifizieren, Sortieren und Analysieren von Metallen im Wareneingang, während des

## High-resolution RIXS with the SAXES Spectrometer at

Since 2007 at the Swiss Light Source, the SAXES instrument, jointly designed and built by the Paul Scherrer Institut and the Politecnico di Milano

## About SGMS

Swiss Group for Mass Spectrometry The Swiss Group for Mass Spectrometry is a society that furthers interactions between scientists working in the various fields of mass spectrometry, doing basic

### ASPEX

The ASPEX configuration incorporates two distinct subsystems, namely the Solar Winds Ion Spectrometer (SWIS) and the Suprathermal and Energetic Particle Spectrometer (STEPS).

### Mobile Metal Analyzer

For onsite metal analysis, SPECTRO offers a complete range of mobile metal analyzer products, from handheld XRF to portable Arc Spark OES spectrometers.
