Overview

HSN Code is a hierarchical system of product Classification, you can explore the hierarchy below of HSN code 85176290, the most popular HSN codes used for Optical Amplifiers. The optical amplifiers use an erbium-doped fiber amplifier (EDFA) and incorporate pump lasers that operate at the wavelength range of 980 nanometers. The dispersion compensation modules (DCM) are used in long haul transmission systems. On February 20, 2026, the President issued Executive Order 14389, "Ending Certain Tariff Actions," which provides that certain additional ad valorem duties imposed under the International Emergency Economic Powers Act (IEEPA) will no longer be collected.
