

What is the ODN of a product

Overview

The official document number consists of a sequential number and an optional alphanumerical prefix or suffix. An official document number is an ID printed on an outgoing document. An Optical Distribution Network is a passive optical transmission system composed of optical fibers, splitters, distribution frames, and connectors. ODN is the number that companies must assign to certain business documents, issued to customers and to tax authorities, adhering to specific rules determined by the legal authorities in a prescribed format.
